---

## PROFESSIONAL SUMMARY

Hi I'm Mehyar and I am a front end developer and a driven, passionate Information Technology graduate looking to further progress my career with an Employer that is recognized for their innovation, adaptability and their staff recognition culture. I work hard, I care about writing clean code and I genuinely love to learn. I'm currently looking for the right opportunity to work in an environment that will help me progress into a front-end role.

## RELEVANT EXPERIENCE

Ready For Rent (Capstone Project)

<https://github.com/s3559505/ReadyForRent>

Worked with team of four people to design and develop a car sharing app that we deployed on Google Cloud, using Git and Circleci. My job in the project was to design and develop the front-end of the website using HTML, CSS, Javascript, Materialize and Google Maps API. We used agile scrum methodology for this project and we received a HD for our grade.
